

Where else can you find and keep fossils from millions and millions of years ago

Have you or someone you know always been fascinated in the history of our Earth and fossils but don't know of any places to go to find them. Well, here's your chance to get a fully guided and supplied trip of a lifetime to find and keep many types and species of fossils

Corals

Ferns

Trilobites

Crinoids

Shark Teeth

Brachiopods

Snails

Sand Dollars

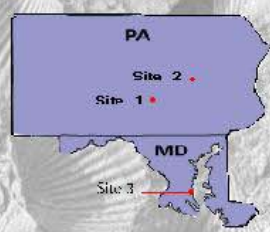

Tree Bark

## What you can expect of your trip

### Expect to:

- Have an awe inspiring educational experience
- Leave with lots of Fossils
- Learn and have fun doing it
- Have the time of your life
- Have new and memorable experiences
- Touch ancient history with your own hands

Me at site 2 next to Cordaites tree trunk

### Who Am I?

My name is Clayton Kern, I am a college student studying Environmental Biology at Unity College in Maine. I have a huge knack for fossil hunting (if you didn't notice). I'd love to share some of my knowledge with you and give you a once in a lifetime fossil hunting experience.

For more information go to

[www.coolclay.info/fossil.html](http://www.coolclay.info/fossil.html)

All pictures presented are of fossils I found at one of the 35 sites mentioned

## Fossil Sites and what fossils can be found

Site 1: Perry County, PA

Period/Age: Devonian/375 million years

Fossils: Marine Invertebrates including brachiopods, bryozoans, coral, crinoids, pelecypods, and trilobites

Site 2: Northumberland County, PA

Period/Age: Pennsylvanian/300 million years

Fossils: Ferns, including Alethopteris, Pecopteris, Neuropteris, Linopteris, and Odontopteris. Tree bark/leaves/roots, including Cordaites, Sigillaria, Lepidodendron, and Calamites. Bush leaves including Sphenophyllum.

Site 3: Calvert County, MD

Period/Age: Miocene/25 million years

Fossils: Shark teeth, including Megalodon, Tiger, Snaggletooth, Mako, Thresher, Gray, Whaler, Cow, Sharpnose, Hammerhead. Scallops, Stingray crushing plates, Sand Dollar fragments, Crab claw pieces, snails, barnacles, coral and many others
